Headline	Trading Update
Released	07:01 16-Apr-07

16 April 2007

Fiberweb plc ("Fiberweb")

TRADING UPDATE

Following a review of trading in the first quarter of 2007, Fiberweb wishes to update the market on a reduction in expectations for the current year.

Current expectations of a significant increase in underlying operating profit and earnings before restructuring in Fiberweb's American Industrial business in 2007 compared to 2006 will not be attained as planned. There is no material change in trading for the rest of Fiberweb. The American Industrial business accounts for around 20% of Fiberweb's sales and accounted for around 40% of Fiberweb's operating profit in 2006.

While sales within the American Industrial business are in line with expectations, operating margin has been seriously affected by a delay in achieving expected improvements in manufacturing efficiencies and margins. Currently, for the full year, operating profit forecasts for this business have been reduced by around £6m, with additional non-recurring costs of around £1m. The impact of these issues will hit the first half of 2007 in particular.

Exchange rates, notably the continuing weakness of the US dollar, will also reduce total reported operating profit for Fiberweb by around £1m from current expectations based on the current \$/£ rate of \$1.98.

In response to this unacceptable situation, the senior leadership of the American Industrial business has been changed and systems are being strengthened. The business is now in the process of being integrated with Fiberweb's American Hygiene business, which has largely completed last year's heavy restructuring programme and is now profitable, to form Fiberweb Americas. The pending sale of the hygiene wipes business, which was announced on 30th March, will assist management in focusing as required on our strategic businesses. Significant cost reductions are expected from the integration and from the actions of new management. An initial assessment of the impact of these actions in 2007 has already been included in the forecasts above, with operating margins in the American Industrial business expected to begin to recover in the second half.

Commenting on today's update, Daniel Dayan, CEO Fiberweb plc said:

"I am very disappointed to report the delay to Fiberweb's turnaround due to the unexpected and unacceptable deterioration in the forecast profitability of the important American Industrial business. It is encouraging that sales in this business remain on-track, especially in the segments we have identified for growth - filtration and speciality construction. We have responded swiftly to this situation, changing local management, strengthening key functions and beginning to address the issues described in this update aggressively. The other 80% of Fiberweb's total business is performing as expected. While this is a significant setback to the turnaround of Fiberweb as a

whole, we remain confident that our strategy and longer-term financial goals remain appropriate and achievable.”

Notes to Editors:

Fiberweb plc demerged from BBA Aviation plc in November 2006 and is one of the largest groups by sales operating globally in the nonwovens industry. Fiberweb focuses on the production of nonwoven materials for use in hygiene and industrial speciality products and it has been able to establish and develop strong positions in several product categories.

In its hygiene division, Fiberweb produces a variety of nonwoven materials for use in diapers, feminine hygiene protection, adult incontinence and other consumer care products including baby wipes, personal wipes and household cleaning wipes.

Within its industrial specialities division, Fiberweb has strong positions in selected niche markets including construction (for example, housewrap, roof-lining and geotextiles), filtration media for water and air applications and fabric softener sheets.

Divestment of Hygiene Wipes Business for Euro 65 million (£44.2 million)

Fiberweb plc announces it has agreed the sale of its hygiene wipes business to Ahlstrom, the Finnish global manufacturer of speciality papers and nonwoven products, for a total consideration of Euro 65 million (£44.2 million) subject to regulatory approvals. This is payable in cash and subject to working capital adjustments. The disposal is expected to be earnings neutral in 2007 before non-recurring charges, with proceeds from the disposal being used to pay down debt.

The hygiene wipes business manufactures wipes for baby care, personal care and household applications and has sales of around £83 million per annum. The business has manufacturing operations in the US, Spain and Italy and gross assets of £68 million. In 2006 it made a loss of £0.2 million before shared costs, interest and tax. The disposal will result in a non-recurring loss of approximately £20 million including £6 million of cash costs which relate to the implementation of the transaction and associated restructuring. As Fiberweb aligns its operations to reflect the disposal of a significant part of its hygiene business, it is expected that further restructuring charges in the order of £4 million will be incurred in 2007. It is expected that the transaction will complete by June 2007 subject to regulatory approvals.

Commenting on the disposal, Fiberweb's CEO Daniel Dayan said today:

"At the time of our demerger in November 2006, we highlighted that conditions in the wipes market had been challenging in recent years and that a strategic review of this business was being undertaken. Having looked at all of the options available, we have concluded that a sale is the best course of action to pursue, allowing management to focus its efforts on the wider turnaround strategy outlined at the time of our demerger as well as reducing net debt. Ahlstrom is a leader in Wipes and well positioned to make this a successful and growing business.

"This divestment represents a significant milestone in the continued transformation of the wider business. It will allow the management team to focus on growing our differentiated industrial business and make selective investments in attractive areas of the hygiene market where we can continue to build leading positions."
